

History, Notice Me

Ways of Knowing + Knowledge

Activity 3: Explore some ways of knowing and see where you end up. As you navigate, you will find yourself on the shores of discomfort, it's part of the experience! Note: there is no ultimate end.

Reflection: Did you take the same exact way as someone else? Is knowledge a straight line?

"Everywhere there are starting points, intersections and junctions that enable us to learn something new."

-Jacques Rancière
